FREEMAN

OR more than half a century the name of Freeman has been before the public. Don't you recollect that your father used to have his boots and shoes made at Freeman's because he could get them to fit his feet and the price to fit his pocketbook and his ideas of value. Now Freeman continues to make boots and shoes. He also has a first-class line of CUSTOM MADE BOOTS AND SHOES in stock, and can fit all sizes in all grades. Freeman keeps also a fine line of GROCERIES, including

The mountains of men employed in other occupations.

A FURTHER COMBINE NEEDED.

The farmers and laborers have comlined against all others, and we can see nuthing wrong in the movement. It is true that one of the principles enuuciated by the combine is opposition to combines, but that is not so paradoxical, after all, when properly understood. But another combine is badly neededa combine of principles that a man can take hold of and stand npou, iustead of al prosperity. ecattering about without concert of article from an Alliance paper that clearly shows the one great need of the farmer to be plenty of money. All other questions are entirely secondary. Yet in another article, also in to-day's CLI-MAX, from the pen of an able man and noted farmer, demonstrates that Gov- in the volume of currency.-National ernment control of railroads is the crying need of the hour. We read in the last week's Farmers Home Journal an KENTUCKY LEAGUE OF DENOCRATIC article going to show that an era of prosperity to the farmer is new dawning, and all owing to the tariff imposed upon certain farm products, thutting off competition of similar foreign products. In the same issue of the journal is another arti le, epitomized from the platform of the National Alliance, demanding the called into the active service of the party ship of the railroads was necessary to the lations to give full effect to this section:

A LITTLE KING.

dother will quit her work to go,

For she can not work you know, When the baby cries.

Father will lay his paper down

And at the trouble never frown, But gently trot the boy to town, When the baby cries.

Sister will leave her fancy work,

And tending haby never shirk, But on her face a smile will lurk,

When the bahy ories.

Brother will leave all of the boys

And count it one of his greatest joys, When the baby cries.

Of course there's some who sulk and pout

And bat and bull and other toys

And so he rules us one and all, A king—whose scepter is his call. Before his throno he bids us fall, And so the baby cries.

When the hahy cries,

To stop his music he'il not hire, When he wants to cry.

and so 'tis much the better plan,

And think he soon will be a man,

And may he he won't cry.

ant drowns your voice with loud increase

Just kindly say—more, if you please,
And let the baby cry.

If this falls, then plctures, including all the delegates and strip a feather, leaving a small tuft on the end, dip it in turpentine, insert the DESERTED by her hushand and too end of the feather in the windplpe, and proud to be dependent, Mrs. Lonisa Par- quickly withdraw. 6. Feed on clean boards. 7. Never allow uneaten food to remain on the ground. 8. Keep the ground clear of filth. 9. The rich, moist THE hig horse sale at Lexington places, such as are favorable to earth worms, are favorable to gapes. 10. Do and sixty-nine horses were sold for not mistake lice for gapes, as the big, gray lice on the skin of the heads and necks will often cause the chicks to funded to Kentucky by the direct tax | gasp from weakness. It is not an easy matter to insert a feather down the throats of a large number of chicks; hence the best wholesale method is to give the turpentine in corn meal, and to use plenty of lime on the ground, as the lime wili destroy all germs of gapes. -Orange Judd Farmer

> RATIONS FOR COWS. Make a Distinction Between Feeding for Butter and for Beef. We must make a distinction between feeding for butter and for becf. We

must find out the inclination of the cows-what they will do with the food. The first thing a cow should do is to pay for her board and her care. It they will not do this we do not want them. They must, however, go further than this, and give up profit. There should not be much hustling about the Bridgeforth Cooking and Heatcow stable. If the cowman is in a hnrry to go to the village, let him start the chores" a little sooner rather than beng the cows about. Milking should be done with our might, mind and strength. Talk has no place in the Good clover comes next ln the order

of inexpensive rations, in the pasture, the aftermath or in the stable. It should be cured when there is the most honey in it. Clover does not impoverish the soil. The more we grow of it the more our soil wili grow of other crops. upon for winter laying are the early. The short crop of hay with us, three years ago, when we had to feed grain ONE of the poorest places to fix the to our cows to get them through, proved poultry house is along the side of the to the farmers of this section that feedbarn or sheds for any of the other stock. ing grain to cows is an advantage, as farm is their liability to trespass upon | Next to the clover comes corn. The

the neighbors, often to their disadvant- sowed fodder corn is poor enough, not Lines retraced. Special attention given and Orange Streets better than sticks soaked in water. to topographical maps and plats of WHEN convenient to town it is often Hundreds of scres of such trash are farms and other lands. Correspondapart-to get the most yield of real tles of Kentucky. Some breeders claim that by feeding food. Green ryc is good in the early the hens liberally on corn at this sea- spring, also oats and green corn in their en, cellar, outbuildings. &c. All in good repair. On street car line.
